

9 September 2020

Dear Mambourin Community Member,

Last weekend the State Government announced their “roadmap for reopening” plan for Metropolitan Melbourne and regional Victoria.

After carefully reviewing these plans, we understand that disability service providers will remain heavily restricted until at least 26 October 2020. We can continue to provide essential one-to-one supports at home, in the community and online. For customers with specific needs, one-to-one support may also occur in the hub.

From next Monday 14 September there are two key changes that will affect services for some Mambourin community members:

1. Public gatherings will increase to two people within 5 kilometres of your home (support workers/carers will not be included in this number).
2. Exercise outdoors increases to two hours per day total, split into a maximum of two sessions.

With these changes coming into effect, you may like to meet a friend outdoors (with appropriate social distancing and infection control) or receive outdoor supports for two hours where previously we were only supporting you for one hour. If you are interested, please contact your local hub manager and they will work to accommodate the request where possible and allowable under the current restrictions.

I know many people were disappointed to hear that the Stage 4 restrictions have been extended. If this has affected you, your needs have changed or you need any additional support, please do reach out to a member of the Mambourin team.

We will keep you updated as the government makes further announcements.

Thank you for your commitment to keeping our community safe.

Yours sincerely,

Rohan Braddy
Chief Executive Officer
